

## ASQ Certified Pharmaceutical GMP Professional (CPGP) Preparatory Course

### Course Code

SGSC-0005

### Course Description

The CPGP is a new certification that now has been introduced by ASQ since 2009. The CPGP preparation course is intended for individuals who are employed in the biologics or the pharmaceutical industry and intend to sit for the ASQ certification examination. By acquiring this certification, individuals demonstrate a proficiency of the GMP principles as regulated and guided by national and international agencies for the biologics and the pharmaceutical industry.

This course accelerates learning and helps the candidates confidently to attain the ASQ CPGP certification.

### Who Should Attend

Participants must have five years of on-the-job experience in one or more of the areas of the CPGP Body of Knowledge. A minimum of three years of this experience must be in a decision-making position. "Decision-making" is defined as the authority to define, execute, or control projects/processes and to be responsible for the outcome. This may or may not include management or supervisory positions.

### Course Content

The course will cover the CPGP Body of Knowledge as below in preparation of the ASQ certification examination.

- 1) Regulatory Agency Governance
- 2) Quality Systems
- 3) Laboratory Systems
- 4) Infrastructure (Facilities, Utilities, Equipment)
- 5) Materials and Supply Chain Management
- 6) Sterile and Nonsterile Manufacturing Systems
- 7) Filling, Packaging, Labeling
- 8) VIII. Product Development and Technology Transfer

### Duration
